

Cincinnati ASHRAE News

A monthly publication of the Cincinnati Chapter of the American Society of Heating, Refrigeration & Air Conditioning Engineers

The President's Corner

Steve Tossey

As noted this year our theme will follow the theme of Society President Darryl K. Boyce:

Building for People and Performance. Achieving Operational Excellence.

"We must ensure operational performance for the people that live, work, and interact in buildings," said Boyce. "People must succeed within the buildings we create. Let's ensure we take the steps needed to achieve effective operational performance and operator experience."

OPPORTUNITIES FOR VOLUNTEERING!

ASHRAE has great opportunities for volunteering, and provides excellent training that will serve you well not only in ASHRAE but in your professional career. In addition to participating in technical committees at the Society level, at the chapter level there are 5 committees at the chapter level to promote the work of ASHRAE. See the side panel.

Also, each year a new board member is elected to the chapter Board of Governors, who will rotate through the offices of the board over five years, learning and seeing how things are done until one serves a year as President. This is a great way to enhance your administrative skills, skills which will continue to serve you well in your career. If you have an interest in learning more about these opportunities, please let me or one of the other officers know.

MEMBERSHIP NOTES

Members can attend monthly meetings free of charge. The cost for non-members will be \$15. Please keep in mind when planning and inviting your co-workers.

Chapter dues are now \$50/year beginning with renewals July 1, 2020. It is noted that although the Society dues for life members are \$0, Chapter dues are still collected from life members for participation in the Chapter.

Our next membership meeting will be Tuesday, November 12 at 11:30 AM at the AIA offices at 1114 Race St.

The program will be presented by Benjamin Seidel, Business Development Engineer for Baltimore Air Coil
New and Innovative Ways to Reduce HVAC Operating Costs

Our meal sponsor will be Habegger.

Cincinnati ASHRAE News

A monthly publication of the Cincinnati Chapter of the American Society of Heating, Refrigeration & Air Conditioning Engineers

The President's Corner (cont.)

Our December membership meeting will be **Tuesday, December 10** at 11:30 AM.

The program will be our annual Cincinnati sports Q&A with Paul Daugherty of the Cincinnati Enquirer, and will be our Past President's luncheon.

We are continuing to look for lunch sponsors (presumably companies) to cover the cost of the meals for our monthly meetings. We have opportunities for sponsors for January, (noon), February (noon) and March (noon). Sponsors may be engineering firms, sales representative/vendor companies, or any other entity interested in helping.

Please know that this is not in violation of ASHRAE policy. Many other chapters have been having lunch sponsors for years now.

We can assure you that the sponsors will not have any "unfair" representation within the speaker presentations themselves, which is where the ASHRAE "neutrality" rules apply."

As we debuted last year, our newsletter will include a list of our donors. This month's list is of the donors we had 2018-2019. We'd love to add your name to the list, whether it be a donation online through the ASHRAE.org or a direct donation to our Chapter. See information at the bottom of page to donate.

As always, I am open to your comments, suggestions, and thoughts. Let me know what you think. We, the board, are here to serve you. Thanks again, and I hope to see you at the new venues in the coming months!

Steve Tossey, ashraecincinnati@gmail.com, 513-608-8565
